PORTFOLIO WEBSITE

2 CREDIT COURSE PROJECT

DSC VIT VELLORE

SUBMISSION DATE – MAY 2020

Github link of project:

https://github.com/vrindachopra/2CC-project

ABSTRACT-

A portfolio website is an extension of resume. It provides a convenient way for potential clients to view a person's work while also allowing him to expand on his skills and services. It also provides a way for him to land more clients, whether that means freelance work, more clients for his agency or employment at a company. Therefore designing a portfolio website is extremely important in digital age.

INTRODUCTION-

Portfolio websites offers opportunity to people to be seen, be heard, to innovate, learn, evolve, build and market their skills.

Building a website about your brand and experience is a polished way to share your expertise with others. Websites can be more creative and innovative than traditional portfolios and are able to share with anyone in the world. If an employer sees your website link in your signature or on your resume, they'll likely click on it to see what you've built. Seeing you've taken the time to build a website featuring work samples, recommendations, previous presentations and more will be a killer first impression.

When an employer Goggles your name, your professional portfolio will be one of the first search results that pops up. Because of the flexibility of an online portfolio, you're able to show your personality by choosing design, layout and the copy you write.

METHOD-

1) Define structure and contents of web page using HTML.
2) Define styling presentation of a web page and the elements on it using CSS.
3) JavaScript is programming language used to control the behaviour of different elements.
4) Bootstrap is the most popular HTML, CSS, and JavaScript framework for developing websites.

CODE-

HTML CODE-

    font-weight: 300;
    margin: 0 0 30px 0;
```

```scss
        &:after
    {
                position:
            absolute;
                content: '';
                top: 100%;
                height: 1px;
                width: 50px;
                left: 0;
                right: 0;
                margin: 0 auto;
                background:
            $base-color;
            }
        }
```

JAVASCRIPT CODE-

```javascript
(function(
$) {
        $('html').removeClass('no-js');
        $('header a').click(function(e) {
            if ($(this).hasClass('no-scroll')) return;
            e.preventDefault();
            var heading = $(this).attr('href');
            var scrollDistance = $(heading).offset().top;
            $('html, body').animate({
                scrollTop: scrollDistance + 'px'
            }, Math.abs(window.pageYOffset - $(heading).offset().top) / 1);
            if ($('header').hasClass('active')) {
                $('header, body').removeClass('active');
            }
        });
        $('#to-top').click(function() {
            $('html, body').animate({
                scrollTop: 0
            }, 500);
        });
        $('#lead-down span').click(function() {
            var scrollDistance = $('#lead').next().offset().top;
```

```javascript
        $('html, body').animate({
            scrollTop: scrollDistance + 'px'
        }, 500);
    });
    $('#experience-timeline').each(function() {
        $this = $(this);
        $userContent = $this.children('div');
        $userContent.each(function() {
            $(this).addClass('vtimeline-content').wrap('<div
class="vtimeline-point"><div class="vtimeline-block"></div></div>');
        });
        $this.find('.vtimeline-point').each(function() {

About Me

My name is Vrinda Chopra. I am a software engineer. I am from Jaipur, Rajasthan. I am a B.Tech graduate in Computer Science Engineerimg from Vellore Institute of Technology, Vellore, Tamil Nadu. My skills include java, C, C++, python, R programming, HTML, CSS, etc. I also have thorough knowledge about stock market and have good management skills. My past working experience describes me as a determined, hard working employee who gives good results even under stress.

Experience

May 2016-May 2017

Employer name - Aman chopra
Job title - Java programmer

I have one year experience of work as java programmer. My work included devlopement of commercial industrial interface application.

May 2017-May 2018

Employer name - Anshul chopra

May 2017-May 2018

Employer name - Anshul chopra
Job title - C programmer

I have one year experience of work as C programmer. My work included devlopement of business applications and execution of various algorithms used in business processes.

May 2018-May 2019

Employer name - Nikkhil chopra
Job title - R programmer

I have one year experience of work as R programmer. My work included devlopement of business application for data visualisation for analysis of business trends.

Education

Vellore Institute Of Technology   May 2018 - May 2022
Bachelor of Tech. in Computer Science

Education

Vellore Institute Of Technology   May 2018 - May 2022
Bachelor of Tech. in Computer Science

I am B.Tech graduate in Computer Science Engineering from Vellore Institute of Technology, Vellore, Tamil Nadu.

Vellore Institute Of Technology   May 2018 - May 2022
Other courses -

- I have also done a course in machine learning.
- I have also done a course in network security.
- I have also done a course in Mysql database management.

Projects

File | C:/Users/user/Desktop/2cc%202020-master/devportfolio/index.html

Apps | WildTangent Game... | Getting Started | YouTube | NetBeans Platform... | Google | Other bookmarks

Projects

Project Name - Food delivery system

This is a food delivery system which uses knapsack algorithm with database management system so that maximum valued food items should be delivered with minimum rounds.

View Project

Project Name - Job scheduler

This is a job scheduler which schedules job to processor based on different scheduling algorithms using C . Different algorithms ensure no short term jobs are starved and priority jobs get processed first.
